In order to make the acquisition of knowledge
a more exciting and interesting process, Kelly has
introduced many innovations in the teaching tech-

may become more aware of their goals, expecta-

The purpose of the Advanced Placement English class is to help students adjust to college level English.

In 1964, Kelly High School was honored by the Illinois Superintendent of Public Instruction by being chosen as one of the Demonstration Centers in the State of Illinois program for gifted children.

Programs for the gifted at Kelly High School have been formulated to maximize the student's motivation and interest. Emphasis is generally on the development of language skills and art appreciations. These are seen as necessary to the needs of both college and noncollege-bound gifted students, cultivating the kinds of skills that will be useful to both types of students as they look forward to a satisfactory, meaningful adult life.

Although the television instruction is now being used on an experimental basis, it's use is expected to be expanded in the classroom.

 There's so much to say to all my good friends, but
 I don't have enough space and my mind's a blank.

 graduation the end of our friendship. Call me in
 the summer or else I'll never speak to you again.
 So there — Best of luck always and May God Bless
 and Keep you.
